To Whom It May Concern:

We are contacting you in regards to the New Hampshire Ave/ Auburn Ave up to Linden Ave. Gas Main Replacement project that is ongoing in your area. We are working to finish our gas installation on New Hampshire Ave., which will require us to work at night. Between the dates of April 18, 2019 through July 18, 2019, construction work will take place at night between the hours of 7:00 pm through 5:00 am, as authorized by the Montgomery County Department of Environmental Protection, and the Maryland SHA. We will make every effort to limit the amount of work we have to do at night, and also reduce the amount of noise we generate. Our day-time construction work will continue during these dates between the hours of 9:00am and 4:00pm, unaffected by our night work. We hope our work will go according to our schedule, which should have us finishing our night work up before the 1st.

Our night work will include the following:

Excavation and replacing of the existing Gas main on New Hampshire Ave at the intersection with Auburn Ave and Linden Ave, and installation of the new Gas main. (Noise generating activities include saws, compressors, generators, back-up alarms, jack hammers, hammer drills, and miscellaneous construction vehicles).

If you have questions or concerns, please contact Bradley Swint, Construction Supervisor for NPL Construction at (571) 220-2452 or Rick Ayoub, Washington Gas Supervisor at (571) 249-0276.
